Education

Jadavpur University

Bachelor of Engineering in Information Technology

Nov. 2024 – 2028

Kolkata, West Bengal

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Object Oriented Systems
- Software Engineering
- Database Management
- Computer Networks
- Computer Architecture

Projects

URL Shortener with Analytics | GitHub | *Spring Boot, H2, REST API, HTML*

July 2026

- Developed a full-stack URL shortening service with custom aliasing, featuring an H2-backed persistent database and RESTful API architecture.
- Implemented real-time click analytics with timestamp tracking, allowing users to monitor engagement metrics via a clean, responsive web interface.

University Marks Manager | GitHub | Live Demo | *Spring Boot, JSON Web Tokens (JWT), MySQL*

June 2026

- **Developed** a decoupled, full-stack University Marks Manager using a **React/Vite** frontend and a **Java Spring Boot** backend to streamline academic record management and automated PDF report generation.
- Implemented stateless authentication and Role-Based Access Control (RBAC) utilizing **Spring Security**, **JWTs**, and **BCrypt** hashing to securely isolate administrative mutations from student views.
- Deployed the **Spring Boot** backend on Render and the **React** frontend on Netlify, integrating them with a managed Aiven MySQL database for secure cloud-hosted access.

Personal Portfolio Website | Live | *React, Vite, Tailwind CSS*

August 2025

- Developed a fully responsive personal portfolio website using **React**, **Vite**, and **Tailwind CSS**, featuring a modern UI with glassmorphism, smooth animations, and mobile-first design.
- Deployed the portfolio on a custom .in domain with **Netlify**, integrating SSL, custom DNS configuration, and SEO-friendly metadata for professional online presence.

Mare Serenj (Santali for "Old Songs") | GitHub | Live Demo | *JavaScript, YouTube IFrame API, HTML/CSS*

August 2026

- Built a cassette-themed web radio player that streams curated YouTube playlists via the **YouTube IFrame API**, with dynamic time-of-day background theming.
- Implemented full playback controls (shuffle, loop, next/previous, live progress bar) with automatic detection and skipping of unavailable or private videos, plus an animated tape-deck UI with spinning reels.

Technical Skills

Languages: Java, C++, C, JavaScript, MySQL

Frameworks: Spring Boot, React, Tailwind CSS, Node.js, Spring Security, JWT, Maven, JDBC

Databases: MySQL, PostgreSQL, H2, Qdrant (Vector DB)

Developer Tools: Git, GitHub, VS Code, Postman, Netlify, Render, Linux, Docker, REST APIs

Design Tools: Canva, Adobe Photoshop, CapCut

Leadership / Extracurricular

ACM-JU Student Chapter

Spring 2025 – Present

Content Team Lead

Jadavpur University

- Managed a team of 10+ members and ran weekly meetings to oversee progress in essential parts of the chapter.
- Led the end-to-end promotional campaign for Synchronicity S2, designing posters, editing promotional videos, and executing digital marketing strategies that generated 50K+ views and attracting 150+ attendees.

JUSSWCA

August 2025 – Present

Social Media Manager

Jadavpur University

- Edited and produced official program videos for JUMID'25, achieving 40K+ views, 1.3K+ watch hours, and growing the YouTube channel by 55+ subscribers.
- Led the creative and digital branding for JUSSWCA, designing event posters, editing promotional videos and reels, creating handmade banners, and maintaining a consistent visual identity across cultural and academic events.
